TECH-DRY MASONRY BLOCKS offer superior strength, durability, and water resistance. Made with advanced pre-sealing technology and a silicone water-repellent admixture, they help prevent efflorescence, mould, and mildew - ideal for long-lasting, low-maintenance construction.

TECH-DRYAD MORTAR ADDITIVE is a premium water-repellent admixture for cement/sand mortars. It delivers superior water resistance, reduces efflorescence, improves adhesion to water-repellent surfaces like Tech-Dry Blocks, and enhances workability for smoother, more efficient application.

DESIGNER MASONRY

Stoneface®

StoneFace® is a registered trade mark of Baines Masonry and is used under licence. Please see our full terms and conditions on our website.

Colours displayed in this brochure are to be used as a guide only. Colours are as close as printing process will allow. Displays in store may vary to actual colour due to batch variations. Obtain samples from Baines Masonry for current batch colour. Care should be taken to order sufficient products to complete job at one time to avoid batch variations. Surplus blocks are not returnable. No claims after seven (7) days or once products have been incorporated in construction.

Refer to Evaluation and Installation guide or website for specification.

Check with your local Council to ensure all local building requirements are complied with.

Concrete Masonry Units manufactured by Baines Masonry are manufactured to AS/NZS4455.1 Masonry Units and Segmental Pavers and tested to AS/NZS4456 Masonry Units and Segmental Pavers - Method of Test.

PRODUCT INFORMATION

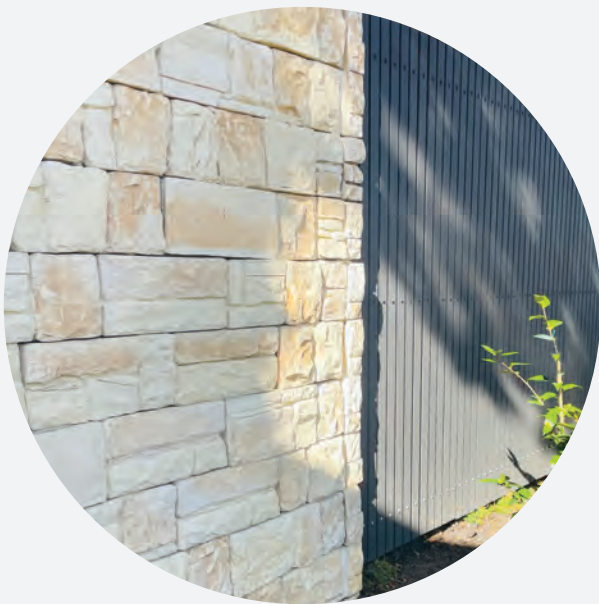

Colourstone® Designer Masonry

Australian Owned, Designed and Manufactured

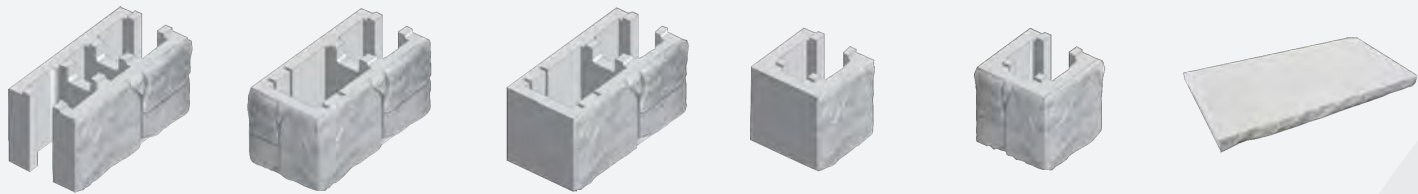

DESIGNER MASONRY

Stoneface®

Aesthetic Integration. A wall isn’t just a structure—it’s part of your outdoor story. Inspired by Australia’s rugged beauty, this reconstituted stone finish comes in four colours and twelve patterns, blending naturally with garden beds, patios, and your home’s textures. It’s not just built—it belongs.
