3 Convenient Edging Styles!

Flex

Flex

Most Flexible Option...Can Be Used Curved or Straight!

Flex Paver Rail can be applied on both straight and curved applications. It is flexible for quick and easy installation. Flex creates a permanent and invisible barrier between pavers and other landscape materials.

Benefits

- ▶ Straight and curved applications
- ▶ For use with spikes or staples

Universal

Low Profile

Universal

The Best All-Around Product for Most Project Types

Universal Paver Rail creates a permanent and invisible barrier between hardscapes and other landscape materials. It can be used on both straight and curved applications on a wide variety of projects. It's the best all-around product.

Benefits

- ▶ Straight and curved applications
- ▶ For use with spikes, staples or stakes

Low Profile

Ideal for Thin Pavers, Natural Stone and Wetcast Slabs

Low Profile Paver Rail can be installed against wetcast or natural stone to prevent shifting. It provides fast and easy installation while creating a permanent and invisible barrier between landscape materials.

Benefits

- ▶ Low profile projects like natural stone
- ▶ For use with spikes, staples or stakes

Staples for Any Project!

Paver Rail Staples

SRW Paver Rail edging can be installed with spikes or staples. Our staples make for a simple install and save you money.

Benefits

- ▶ 8 gauge, 10" (25.4cm) staples for easy installation
- For use with all SRW Paver Rail edging styles

Staples ▶

10" (25.4cm)
U-SHAPED

Professional Sprayers

Hudson® Constructo® Spray Thick™

Benefits

- ▶ Galvanized steel
- ▶ Can handle up to 35% solids
- ▶ Ideal for commercial applications

Applications

- ▶ **Specialty Seal:** RWX, DG
- ▶ **Paver Seal:** PS, PSX, LG, HG, HGX
- ▶ **Premium Stone Seal:** S-PS, S-HGX
- ▶ **Wetcast Seal:** W-PSX, W-HGX
- ▶ **Concrete Seal:** WB: All, SB: 1-Step, Green, Select, X-treme, True Seal, Finishing

Caulking Guns

Premium Caulking Gun

made of heavy-duty steel and features a spout cutter, seal puncture tool and a revolving barrel.

Premium Caulking Gun

Slit Foam Rollers

Benefits

- Applies SRW sealers evenly
- Works great on textured surfaces
- Remains spongy and will not compress

SRW Slit Foam Roller
For use with any SRW sealer (except VOC-labeled)

SRW Slit Foam Roller X-treme
Specifically designed for use with solvent-based SRW sealers

Hudson Heavy-Duty Acetone Sprayer

Benefits

- ▶ For use with acetone-based products
- ▶ Ideal for commercial applications

Applications

- ▶ **Specialty Seal:** DG VOC
- ▶ **Paver Seal:** PS, PSX, LG, HG, HGX VOC
- ▶ **Premium Stone Seal:** S-PS VOC, S-PSX, S-HGX VOC
- ▶ **Wetcast Seal:** W-PSX, W-HGX VOC
- ▶ **Concrete Seal:** WB: All, SB: 1-Step VOC, Green VOC, Select VOC, X-treme VOC, True Seal VOC, Finishing VOC

StringAlong

Benefits

- ▶ Take down the line and put it back up without measuring
- ▶ Ability to create three to four different lines from different directions at one time
- ▶ It's built to last from nylon with a brass insert and zinc coated thumbscrew
- ▶ Fits all round stakes up to 1" (2.54cm)

Applications

- ▶ Hardscaping
- ▶ Surveying/Fencing
- ▶ Concrete & Masonry

StringAlong
Collar &
Thumbcrew Counter Display

SRW Heavy-Duty Sprayer

Benefits

- ▶ High-output nozzle
- ▶ Viton seal
- ▶ Adjustable nozzle with mist, spray or stream capabilities
- ▶ Extra-thick resin bottle ideal for solvents and chemicals
- ▶ Opaque bottle protects light-sensitive chemicals

Applications

- ▶ SRW Cleaners
- ▶ Disinfectants
- ▶ Fertilizers
- ▶ Weed Killers/Insecticides

solid solutions to better hardscapes

Is it important to use a sprayer when sealing concrete?

Yes. When used in conjunction with an SRW Slit Foam Roller, it provides an even film across the surface.

What do I use to clean up after sealing?

SRW XY Xylene is a fast-acting solvent that thins and dissolves acrylic sealer to aid in tool clean up and overspray.

Why does SRW recommend using a Slit Foam Roller?

It helps to evenly distribute sealer across a textured surface. This will prevent pooling in lower areas. Use the X-treme roller for solvent-based sealers.

Which caulking gun should I use with Vertical Instant Lock Adhesive?

The Premium Caulking Gun is made of heavy-duty steel and will work best for thick formulas such as Vertical Instant Lock.

How many staples should be used when installing an erosion control blanket?

Putting 1.2 staples per sq. yd. (sq. 0.84 m.) is recommended.

Can I use Mulch Stabilizer on Synthetic Mulch?

Yes. Mulch Stabilizer works on colored, natural and synthetic mulch as well as pine straw. It can even be used on sand and dirt to control dusting.

SYNTHETIC MULCH

PINE STRAW

SAND & DIRT

NATURAL MULCH

COLORED MULCH
